CONTENTS

Vol. 145, No. 1, January 1985

Postheparin plasma lipoprotein lipase activity in heterozygotes of familial lipoprotein deficiency. *Y. Kondo, I. Kurobane, K. Omura, R. Sano, R. Abe, N. Chida and K. Tada* 1

Some red blood cell abnormalities in patients with liver cirrhosis and ascites. I. Red blood cell sodium, potassium and water content. *F. Afifi* 7

Concurrent endometrial hyperplasia with carcinoma of the corpus uteri. *A. Yajima, H. Sakahira, Y. Wada, S. Sato, R. Yamauchi, N. Ozawa, T. Toki, T. Tase, N. Oikawa, S. Uehara and M. Suzuki* 15

An immunohistochemical study of keratin, carcinoembryonic antigen, human chorionic gonadotropin and alpha-fetoprotein in lung cancer. *N. Kimura and L. Ghandur-Mnaymneh* 23

Pepsinogen isozymes in Borrmann IV type gastric carcinoma. *K. Nakamura and H. Sue* 39

Autoantibodies, including antibasement membrane antibody, in patients with selective IgA deficiency. *N. Funakoshi, T. Kanoh, S. Mizumoto and H. Uchino* 49

An application of fluorescein-conjugated monoclonal antibodies to the diagnosis of *Chlamydia trachomatis* infection in children. *K. Numazaki, S. Chiba, T. Moroboshi, N. Tachi, K. Aoki and T. Nakao* 57

Gastric acid secretion, intraduodenal pH and gastroenteropancreatic hormone release to bombesin in antrocolic transposition dogs. *F. Koizumi, T. Kawamura, A. Ishimori, I. Sasaki and J. Kameyama* 65

Expression of receptors for Fc portion of IgM ($Fc\mu \cdot R$) and surface neuraminic acid on human peripheral lymphocytes. *S. Kataoka, T. Kikuchi and T. Toyota* 73

Abolition of spontaneous rhythmic contractions of isolated monkey coronary arteries by diltiazem, nifedipine, verapamil and nicorandil but not by nitroglycerin. *K. Ishii, T. Yanagisawa, K. Satoh and N. Taira* 85

Mustard procedure for simple transposition of the great arteries. *E. Ishizawa, M. Tadokoro, S. Satoh, Y. Suzuki, K. Haneda, Y. Kagawa and T. Horiuchi* 91

Influence of maternal antibody anti-Jr^a on the baby: a case report and pedigree chart. *T. Takabayashi, M. Murakami, H. Yajima, M. Tsujiei, N. Ozawa and A. Yajima* 97

Short Report

Effect of plasma exchange on acute pancreatitis. *H. Yamauchi, K. Takeda, M. Sunamura, K. Miyagawa, S. Matsubara, Y. Asanuma and T. Satoh* 103

Vol. 145, No. 2, February 1985

Inhibition of sterol and DNA syntheses in phytohemagglutinin-stimulated human lymphocytes by 7α-hydroxycholesterol. *H. Hemmi, F. Kitame and N. Ishida* 105

Impairment of opsonic function in children with hematologic malignancy during remission induction therapy. *N. Ueno, T. Tono-oka, T. Matsumoto, M. Ohkawa, T. Shikano and S. Matsumoto* 115

Effects of enalapril maleate (MK-421) on renovascular hypertension. *K.*

Ogawa, M. Matsunaga, H. Nagai, A. Hara, H. Koide, C.H. Pak, A. Hirakawa and C. Kawai 125

Multiinstitutional evaluation of local injection of absolute ethanol as the new hemostatic method for upper G-I tract bleeding. *S. Asaki, T. Nishimura, A. Sato, R. Yamagata, S. Okubo, T. Toyohara, Y. Saito, S. Ito and S. Miyazaki* 137

New trial of endoscopic treatment for gastric submucosal tumors. *S. Asaki, T. Nishimura, S. Ohara, A. Sato, D. Shibuya, N. Kanazawa and Y. Goto* 149

Comparative study on the responses of plasma GH to synthetic GH-releasing factor and other stimulatory and inhibitory agents in patients with acromegaly. *K. Hanew, S. Sato, A. Sasaki, Y. Shimizu, O. Murakami and K. Yoshinaga* 161

Prevalence of hypertension in diabetes mellitus——its relation to diabetic nephropathy. *T. Baba, S. Murabayashi, K. Aoyagi, K. Sasaki, K. Imamura, M. Kudo and K. Takebe* 167

Sulfated glycopeptides, containing desmosine and isodesmosine, isolated from porcine aorta. *J. Aikawa, H. Munakata, M. Isemura and Z. Yosizawa* 175

Measurement of the ratio of primary to total bile acids in serum by enzymatic fluorometric microassay and its clinical significance in patients with liver disease. *S. Ikawa, H. Kawasaki, Y. Yamanishi, T. Mura and M. Miyake* 185

Measurement of SRS-A activities in plasma of asthmatic patients. *H. Ohtsu, S. Mue, G. Tamura, K. Yamauchi, T. Ishihara, K. Sato and T. Takishima* 197

Genetic and environmental factors in the development of Behcet's disease. *K. Tanaka, K. Kajiyama, T. Imamura, S. Jimi, T. Watanabe, H. Sato, K. Okochi and T. Inoue* 205

Decreased urinary active and inactive kallikrein by chronic infusion of vasopressin in conscious rats. *M. Yasujima, K. Abe, M. Tanno, K. Omata, Y. Kasai, M. Sato, T. Kimura and K. Yoshinaga* 215

Pathochemical study of a case of hereditary cerebral degenerative disease ——lipopigment accumulation and peroxidase deficiency in brain. *S. Yamaguchi, A. Okuno, Y. Eto and K. Maekawa* 223

Short Report

Motor time of the rectus femoris during passive movements. *N. Sajiki and R. Nakamura* 231

Vol. 145, No. 3, March 1985

Quantitative evaluation of diabetic autonomic neuropathy by using heart rate variations—Determination of the normal range for the diagnosis of autonomic neuropathy. *N. Oikawa, M. Umetsu, T. Toyota and Y. Goto* 233

Effects of methylmercuric chloride and bis (methylmercuric) selenide on responses of isolated intestinal smooth muscle of the guinea-pig. *Y. Fukushi and R. Yamamoto* 243

An application of the high-iron diamine staining for detection of sulfated glycoproteins (glycopeptides) in electrophoresis on cellulose acetate membrane. *H. Munakata, M. Isemura and Z. Yosizawa* 251

Estimation of alveolar deposition ratio of inhaled radioaerosol. *T. Isawa, T. Teshima, T. Hirano, A. Ebina and K. Konno* 259

Quantitative light and electron microscopical studies of the effect of vagotomy on parietal cells in rats. *R. Nakamura* 269

A new individual variation of saliva detected with rabbit anti-human saliva

serum. *M. Iwasa, I. Ohya, T. Yokoi and K. Sagisaka* 283
Prognosis of the pancreatic cancer in terms of the regional lymph node reaction. *S. Matsuno, M. Kobari, H. Hisano, H. Yamauchi and T. Sato* 291
Coronary arterial lesions in piglets from sows fed moderate excesses of vitamin D. *T. Toda, Y. Toda and F.A. Kummerow* 303
Expression of arylsulfatase B variant from leukocytes in chronic myelogenous leukemia related to chemotherapy. *Y. Uehara, S. Gasa, A. Makita, K. Sakuhada and T. Miyazaki* 311
Biochemical and membrane functional alterations in red cells during preparation and storage of leukocyte- and platelet-poor red cell suspensions prepared by warm-centrifuge method. *T. Shimizu, Y. Ishikawa, A. Furuta and T. Fukuda* 321
Effect of diet restriction on 24-hr urinary C-peptide excretion in non-insulin dependent non-obese diabetic subjects. *Y. Oshima* 329
Relationship of muscle strength for knee extension to walking capacity in patients with spastic hemiparesis. *R. Nakamura, T. Hosokawa and I. Tsuji* 335
Experimental emphysematous bullae induced by methylchoranthrene and carrageenan. *T. Mitsuhashi, Y. Chanoki, H. Kuwahara, T. Sakai, H. Masuda and S. Sugino* 341

Vol. 145, No. 4, April 1985

Glycosaminoglycans from renal brush border membranes of rabbits. *H. Munakata, M. Isemura, J. Aikawa, C. Kodama and Z. Yosizawa* 353
Cardiovascular and respiratory effects of antiarrhythmic drugs on conscious beagles. *K. Hashimoto, T. Shibuya and S. Imai* 359
Total cholesterol, high density lipoprotein cholesterol and choline esterase in overseas and Japanese university students. *S. Nakamura* 369
Distribution of fibronectin and other connective tissue components in human placenta. *M. Isemura, Y. Yamaguchi, H. Munakata, K. Kurosawa, T. Furuyama, K. Yoshinaga, T. Masuda, H. Nagai, M. Motomiya and Z. Yosizawa* 373
Calmodulin concentration in the uterus during pregnancy and influence of sex steroids. *T. Yoshida, K. Shinyashiki and K. Noda* 381
Precancerous lesions of the gallbladder mucosa. *T. Mukada, N. Andoh and T. Matsushiro* 387
Elevated cholecystokinin-like activity in the duodenal mucosa in patients with cholecystolithiasis. *S. Kataoka and K. Syoji* 395
Active, inactive and total renin concentrations in plasma of hypertensive patients. *T. Goto, K. Abe, K. Tsunoda, M. Seino, M. Yasujima, Y. Imai, S. Chiba, M. Sato, T. Haruyama, K. Omata, K. Sato, J. Tajima, M. Tanno, K. Kudo and K. Yoshinaga* 403
Constant growth of primary school children throughout four seasons of year. *M. Ikeda and T. Watanabe* 413
Diurnal variation of QT interval in patients with VVI pacemaker. *E. Oda, Y. Aizawa, Y. Arai and A. Shibata* 419
The effects of PGE_2 on vasopressin- and guanine nucleotide-mediated adenylate cyclase activity in toad bladder membrane. *H. Shimada, T. Nishina and F. Marumo* 427
Comparative enzymology of eleven acid hydrolases in cultured amniotic fluid cells, skin fibroblasts and embryonic lung fibroblasts, and the respective

changes with the increasing age of the cell cultures. *R. Minami, K. Wagatsuma, Y. Ishikawa, M. Watanabe, T. Nakao and S. Tsugawa* 437
Immunoprotective capability of somatic hybrid cells in comparison with parental tumor cells maintained in vitro. *Y. Mizushima and E.P. Cohen* 447
Musculoelastosis: a change of small pulmonary arteries found in a case with atrial septal defect and pulmonary hypertension. *S. Yamaki, T. Horiuchi, M. Miura, Y. Suzuki, Y. Abe, E. Ishizawa and Y. Kagawa* 455
The participation of the subepithelial airway receptor in the bronchoconstriction of monkeys. *S. Mue, T. Ishihara, G. Tamura, W. Hida, K. Sekizawa, K. Yamauchi and T. Takishima* 465
Unusual low affinity of human liver fibronectin for gelatin. *M. Isemura, H. Munakata, M. Kosakai, Y. Yamaguchi, J. Aikawa and Z. Yosizawa* 477
